ACCF Health Promotion Charitable Trust - Donation Form

Women still die of cervical cancer, somewhere in the world, every 2 minutes!

Australian indigenous women are at risk of developing cervical cancer at five times the rate of non-indigenous women.

43% of Australian women do not have regular pap tests!

ACCF is working to change these statistics. Your tax deductible donation to ACCF's Health Promotion Charitable Trust can help save lives and prevent suffering. Donating to ACCF's work in Australia gives back to the community by raising awareness about cervical cancer and how to prevent it. You can support our Australian programs by donating today. Complete this form and send back to
